PROGRAM REPORT

Title of the Program: NSS Special Camp - Basic Life Support Training for villagers and volunteers.

Date(s): 04/03/2023 **Duration of the activity** - 1 Day

Venue: Wadholi Village, Taluka Trimbakeshwar, Dist. Nashik.

Details of Participants: 52

Name of the Contact Person: Mr. A. M. Supe, Gramsevak, *Wadholi* Village, Taluka Trimbakeshwar, Dist. Nashik.

Introduction:

In a concerted effort to enhance community preparedness in the face of emergencies, the NSS Unit of KCT's Late G. N. Sapkal College of Engineering, in collaboration with Shriguruji Rugnalaya, Nashik, organized a Basic Life Support Training on the 4th of March 2023. This activity was a pivotal part of the 7-day residential NSS Special Camp held in Wadholi village, designed to equip both villagers and volunteers with life-saving techniques.

The Basic Life Support Training aimed to impart essential skills and knowledge that can be instrumental in saving lives during critical situations. The collaboration with Shriguruji Rugnalaya, Nashik, facilitated expert guidance and resources for the training.

Activity Execution:

The training event took place at the Z. P. School in Wadholi village, providing a conducive environment for learning and practice. Dr. Gangurde, an expert from Shriguruji Rugnalaya, served as the resource person for the training.

Key aspects of the training included:

Cardiopulmonary Resuscitation (CPR): Participants learned the correct techniques for administering CPR, an essential skill in reviving someone whose heart has stopped.

Choking Response: The training covered how to assist someone who is choking, emphasizing the Heimlich maneuver to dislodge foreign objects from the airway.

Response to Unconsciousness: The training outlined the appropriate steps to take when encountering an unconscious individual, ensuring their safety and providing necessary aid.

Emergency Contact and Communication: Participants were educated on the importance of swiftly contacting emergency services and efficiently communicating information during critical situations.

Achievements:

The Basic Life Support Training session was highly successful, equipping both villagers and volunteers with crucial life-saving skills. The training not only provided knowledge but also offered participants the opportunity to practice these techniques under the guidance of a medical professional.

Community Impact:

The impact of this activity extended far beyond the event itself. Villagers and volunteers gained confidence in their ability to respond effectively during emergencies. The training raised awareness about the importance of rapid and efficient first aid and response, ultimately contributing to the safety and well-being of the community.

Conclusion:

The NSS Unit of KCT's Late G. N. Sapkal College of Engineering, in partnership with Shriguruji Rugnalaya, Nashik, successfully organized the Basic Life Support Training during the 7-day residential NSS Special Camp. This initiative exemplifies the NSS Unit's commitment to community service and the promotion of essential life-saving skills.

The NSS Unit extends its gratitude to Dr. Gangurde and Shriguruji Rugnalaya for their valuable contributions to this activity. The Basic Life Support Training not only provided essential knowledge but also instilled a sense of empowerment, enabling individuals to take action during emergencies and potentially save lives.
