#### **Name & Contact Details of the Resource Person(s):**

1. Mr. Mr. Jomy Jacob,

Joint Director of GST Intelligence, Kochi Zonal Unit - Kerala.

Contact No: 9920474815

Mail id.: jomyjacobarackal@gmail.com

He is an officer of the 2009 batch of Indian Revenue Service under Central Board of Customs and Indirect Taxes, Ministry of Finance, Government of India. He started his career in 2009 as Assistant Commissioner of Customs, Mumbai. Thereafter, he got promoted as Deputy Commissioner in 2014 and thereafter as Joint Commissioner in 2019. He worked in different areas of taxation such as Customs, GST, Risk Management, Intelligence Directorate etc. He is the recipient of the World Customs Organization's Certificate of Merit (2019) awarded by the Hon'ble Finance Minister in recognition of commitment and rendering of exceptional service.

#### **Description / Explanation of the Program:**

Career Katta forum of LATE. G. N. SAPKAL COLLEGE OF ENGINEERING has organized one day online session on "Career Opportunities in Government Sector for Engineering Students". Civil Service positions are

one of the most competitive and challenging government jobs in India, as we all know. As a result, many engineering students, can prepare for a career in the civil service. Government take employment tests like the IPS, IAS, IES, and IFS. Students are advised to prepare for the UPSC Exam first, then apply for the IAS or IPS. Every year, the Union Public Service Commission (UPSC) holds an exam for Indian Engineering Services, in which engineering final year students are entitled to apply for it.

Resource person highlighted some sectors for career opportunity as follows:

PSUs (Public Sector Institution):

Many Public Sector Undertakings (PSUs) hire thousands of engineering graduates each year in technical fields, in addition to the federal government and different state governments. BTech final-year students can apply for these government positions.

Railways:

India is a huge country with a huge population. As a result, the government has established a vast train network to transport the populace throughout the country. Indian Railways operates the world's second-largest railway network. This necessitates a lot of upkeep and a lot of money to do it. There are numerous positions available, with thousands of vacancies in some of them around the country. Junior engineers, technicians, inspectors, trainers, senior management, group general manager, group C, and Group D, loco pilots, assistant loco pilots, and so on are only a few of the positions available.

SSC (Staff Selection Commission):

It is a government of India-run institution that recruits persons for various subordinate posts across the country. SSC is also involved in the management of many organizations at the state level. Certain fields involving applicants' physical ability are also included in national tests. Graduate students who are looking for Government Jobs After BE/B.Tech and wish to create a career and utilize their skills and expertise in a collaborative, dynamic, and modern workplace can find intriguing job options with the company.

Scientist:

Lots of students are confused regarding how to become a scientist after BE/BTech. To make your career in scientist only a BE/BTech degree will not help you. After BE/BTech, you have to pursue your education in M.Tech. Later you have to pursue a PhD. After having the specialization in the same subject you will become a researcher. If you want to become a scientist at ISRO then math and

physics would be your major subject. This field required lots of studies and deep knowledge of the subject. This is one of the best jobs for BE/BTech students.

Defense:

After BTech, the most renowned government positions are available. Every year, numerous admission examinations are held, allowing you to pursue a career in defense after completing your engineering degree. After engineering, you'll have a bright and fruitful career in defense. Because there are so many options in the field of defense, choose wisely.

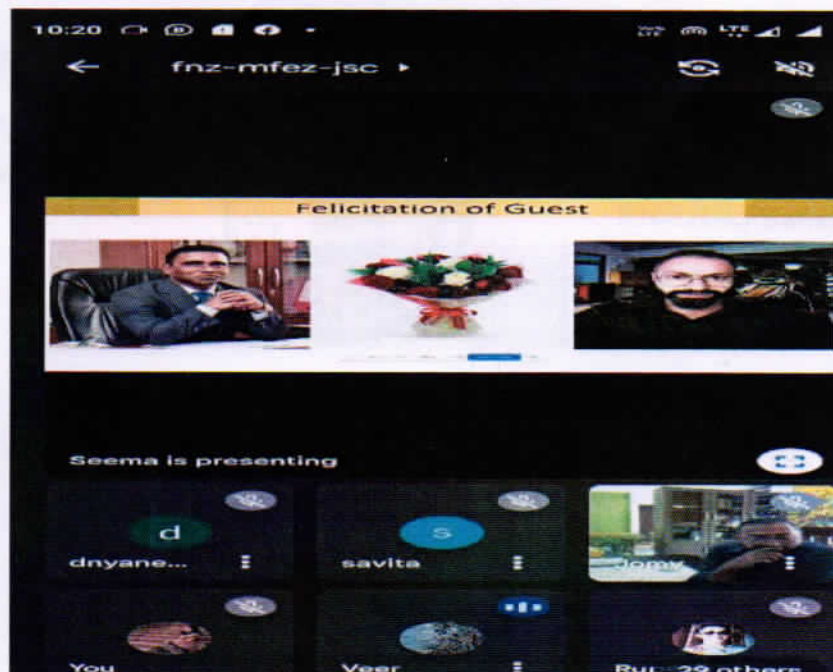

Banking:

Why do people pick banking as a career path after graduating from engineering? There are numerous grounds for a better career decision, such as a promising sector, a better salary package, future stability, government allowances and perks, and the fact that it is a stress-free profession. Engineers assist banks in expanding their financial infrastructure and technology. The technological sector has improved as a result of this. Mobile banking, Internet banking, card management (debit/credit), and IT stability are only a few examples. Engineers supply banks with their strong mathematical and analytical skills, which helps to increase customer numbers and trust. Every year, the banking industry offers a plethora of job opportunities. As a result, not only BTech students but also other graduate students were able to obtain government positions.

### Outcome of the Talk / Event:

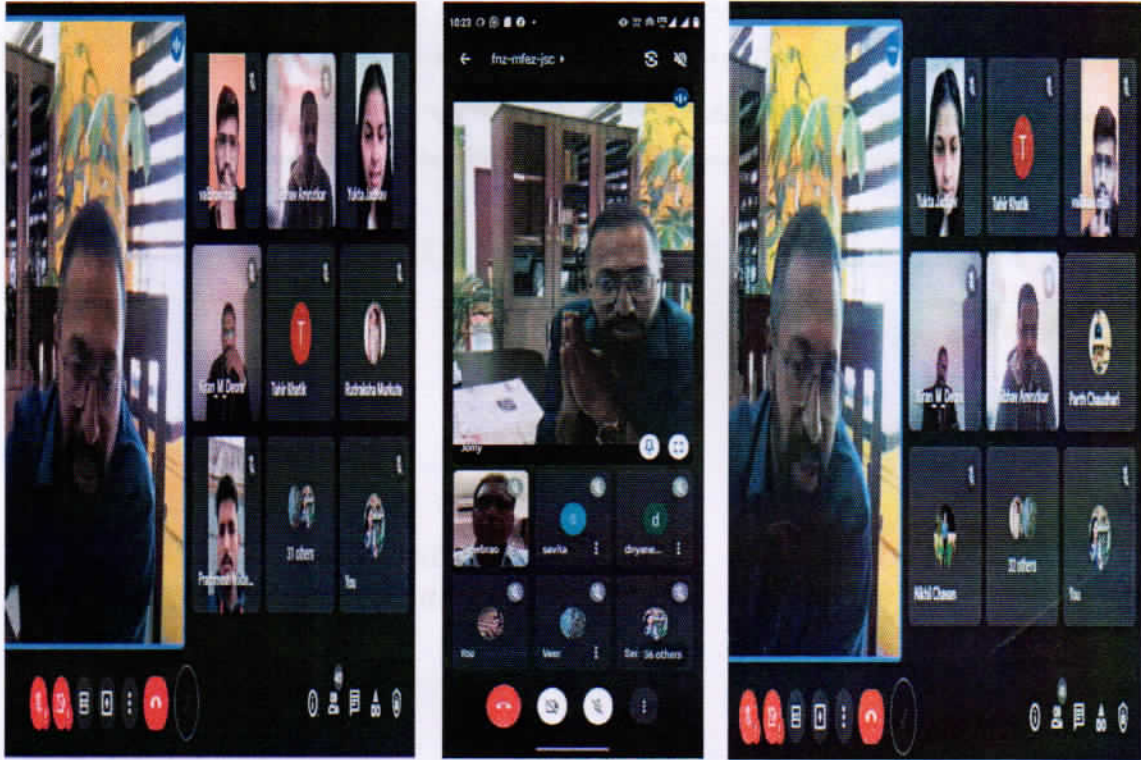

1. Participants were introduced to different career options after BE.
2. Attendees will be equipped to apply their newly gained knowledge practically, making a decisions regarding career selection.

### **Description / Explanation of the Program:**

Kalyani Charitable Trust's LATE. G. N. SAPKAL COLLEGE OF ENGINEERING of Computer Engineering department organized one day session on Career Counseling. Career Counseling is a process that will help you to know and understand yourself and the world of work in order to make career, educational, and life decisions. Career development is more than just deciding on a major and what job you want to get when you graduate. The Importance of Career Counseling is to help in the selection of the appropriate career and aid in the development of confidence and skills. Aids in relying on professional advice or resources and serves as a role model and assists in providing mental

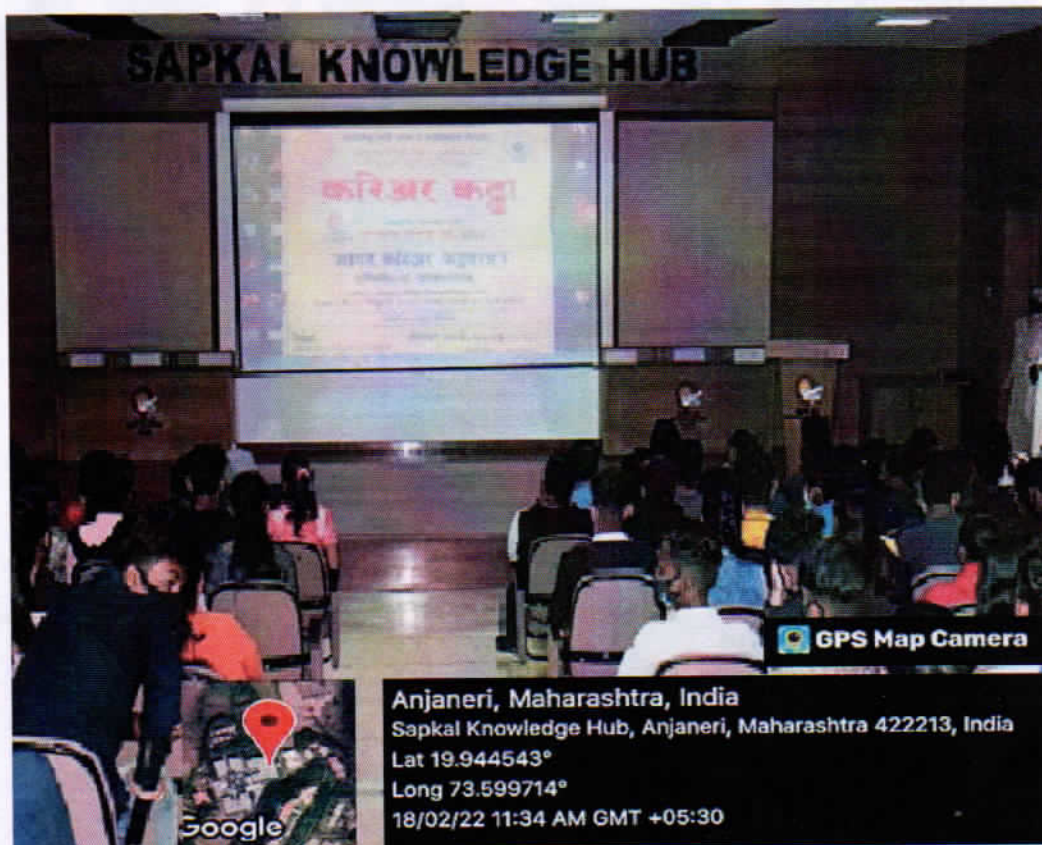

stability in thoughts. The expert talk fosters an environment conducive to engagement, encouraging interaction, vibrant discussions, and networking opportunities among participants, esteemed speakers, industry experts, and fellow students. Ultimately, the program culminates in a community-driven atmosphere, uniting individuals passionate about career counseling.

### Outcome of the Talk / Event:

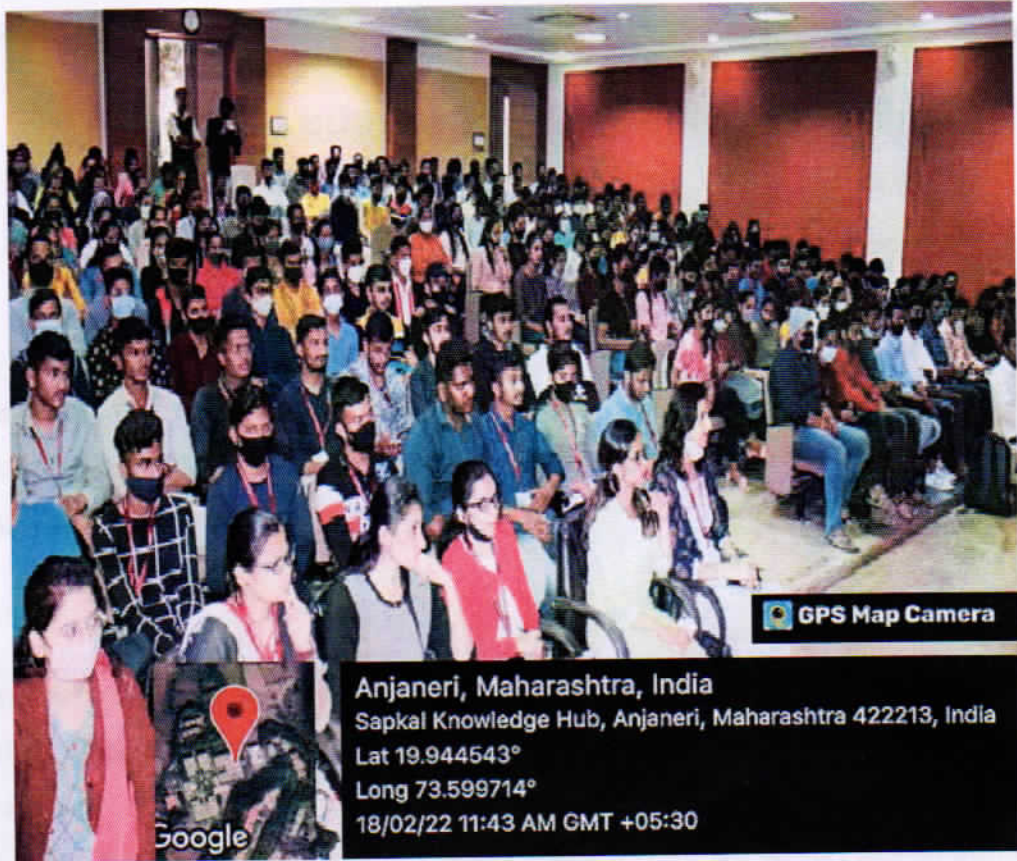

1. Participants will be introduced to emerging technologies and trends influencing the future of career counseling.
2. Attendees will be equipped to apply their newly gained knowledge practically, making informed decisions regarding career counseling.
3. The expert talk will facilitate engagement among participants, encouraging interaction, discussions, and networking opportunities with speakers, industry professionals, and fellow students, fostering a community interested in career counseling.
