The goal of this competition is to prepare the future Generation of engineers not only problem solvers but to be innovative leaders and responsible citizens. The student deserves recognition of the amount of hard work done for the project. This year Department of Electrical Engineering, Late G. N. Sapkal College of Engineering, Nashik has taken up the responsibility for hosting **SKH Project e-Competition -2020** at National Level as a part of Department.

#### **Preamble:**

Project enables students and faculty to transform their learning into knowledge, knowledge into action, action into practice. Technical project competition allows students to practice soft skills while reinforcing their engineering knowledge. The contest helps students to consolidate their knowledge and professional skills. They have the opportunity to improve soft skills such as communication, presentation, teamwork and problem-solving and technical abilities beyond boundaries. The project contest gives students a lot of knowledge and inspired them to try and improve academic activities to enhance knowledge and skills, prepare them for industry readiness. This may result to turn engineering projects into prize winning entries and may transform project into commercial product. In order to promote and encourage young entrepreneurs, it is absolutely necessary to inform them about self-employment opportunities and to convert "job-seekers" into "job-generators". Entrepreneurship, Innovation session would help to foster entrepreneurial culture among students, how to bridge the gap between education and industry, establish better linkages with industries, R&D institutions, financial Institutions and other related organizations engaged in promoting small & medium enterprises.
