

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the manual

Description of Best Practice – I: Student counseling and Teacher-Guardian scheme

1. Title of the Practice: Student counseling and Teacher-Guardian scheme

2. Objectives of the Practice

- To help students to solve technical as well as non-technical issues through personal counseling
- To support students' personal growth and total development
- To create awareness about their hidden potentials
- To develop positive attitude to face the professional & personal life situations

3. The context:

By designating a teacher guardian to a group of pupils, counseling and mentoring can be done efficiently. Through fostering trust and confidence, mentoring offers the chance to discuss challenges and problems in order to receive qualified assistance and guidance. The teacher guardian produces reports at regular intervals.

4. The Practice:

The teacher guardian scheme offers students a one-of-a-kind chance to interact with a seasoned professional and receive personalised career advice, support, and direction for their chosen field. From the first to the last year, a teacher guardian is assigned to a certain group of pupils. This mentoring programme is run in an organised manner. Students and the teacher guardian meet frequently to talk about academic and personal progress.

The support offered by the counseling through teacher guardian is reflected in the academic and employment achievement of students. The database of students who were guided and inspired to reach greater career heights supports the aforementioned claim. During counseling sessions and teacher guardian meeting, students learn about their own personality features and are given advice on how to improve in certain areas so that they can develop into fully- rounded professionals. It aids students in getting ready for their

placement.

In certain severe cases of depression, the success of the scheme was also seen. Some students were coping with personal and medical issues as well, which teacher guardians handled expertly. Some of the students were on the point of quitting their engineering programmes due to bad results in their semester examinations and concerns about their ability to handle life in general. In such situations, many students have been inspired to finish their programme by the teacher guardian through counseling. The guardian teacher updates the parents frequently on their ward's development.

In addition, the students are counseled about road safety, healthy lifestyles, cleanliness, Swachh Bharat campaign, conservation of water and energy, choice of careers etc. They are also informed about the various facilities and scholarships that are available.

5. Evidence of Success

- Increased student attendance and concentration on the teaching-learning process.
- Enhanced communication between the college and parents.
- Improved student self-assurance and study habits.
- Improved student engagement in extracurricular activities and contests.
- Contributes to maintaining a litter-free campus.
- Students use trash cans placed in appropriate places in accordance with instructions to separate dry and moist waste.

6. Problems Encountered and Resources Required

- Being a mentor requires specialized work. Faculty must have the necessary training to improve mentoring efficacy.
- It can be challenging for the teachers to dedicate enough additional time to the students due to their busy schedules and other academic commitments.
- If a student received the same mentor throughout the programme, it would be more successful overall, however due to administrative issues, this couldn't be possible.

Best Practice – I: Student counseling and teacher-guardian scheme

Evidence of Success

NAME OF THE DEPARTMENT- FIRST YEAR ENGINEERING

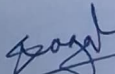

Sr. No.	year	Description of Student Counseling And Student Problems-	Name of student and admission year	Semesters	Result	Observation after counseling	Remark
1	2020-21	During Semester I the student was facing problem in subject Engg Mathematics-I he was frightened about the subject and due to which he failed in examination of Semester I. During Semester II the student was counsel by teacher guardian and fear of Mathematics was removed from his mind. As teacher guardian was a mathematics teacher she was able to guide student in proper way this help the student and he clear all the subjects in semester II examination with first class with SGPA score of 7.57	KOLHE RAHUL SANJAY (2020-21)	Sem- I	One Subject Backlog	Student was motivated and feeling confident in her studies by the guidance of teacher guardian	Overall progress of student is good
				Sem-II	All Subject clear with SGPA Score 7.57		
2	2020-21	Due to family background of the student was not comfortable when he took admission to Engineering course. He was feeling nervous and was not able to concentrate on studies. Due to which he failed in two subject in examination of Semester I. During Semester II the student was counsel by teacher guardian and motivated him in studies and due to which student started feeling confident. Through out the semester the teacher guardian was in touch with the student and due to proper guidance of teacher guardian she clear all the subjects in semester II examination with first class with SGPA score of 7.48	KIRAN SANJAY BHOI (2020-21)	Sem- I	Two Subject Backlog	Interest in Mathematics Subject was created by counseling of teacher guardian	Overall progress of student is good
