

Invitation to enquire, explore and experiment in a world of School Education!
Opportunities at Orchid International School, Nasik, from April 2018

(Date of Issue: Rev 00, 05.12.2017)

Orchid International School is located in the beautiful and hilly terrain of Anjaneri Hills, part of the Sahyadri Range, on Trimbakeshwar Road, about 25 kms. from the ancient temple town of Nashik, in the state of Maharashtra.

Affiliated to the Council for the Indian School Certificate up to Class 10 and to the Higher Secondary Board for Classes 11 and 12, its infrastructure and educational processes are designed to make it one of the most respected residential schools of the country. Inspired by a leadership team which comprises of progressive educationists, it had been ranked as one of the top ten best co-educational, residential schools of the country for three years or more during the period 2011-2014 as per C-Fore and Education World Survey of Schools, during that period. It is on the path of intensive and steady progress once again.

To take its educational endeavor into the next intensive phase the school invites well qualified, accomplished, versatile and committed individuals or couples to join hands with the existing team to learn, explore and experiment with different teaching-learning processes and to interact with children so that they develop and grow up in an all round manner. We expect the prospective faculty members to be affectionate and versatile professionals who will be able to contribute in an organic and dynamic manner to the changing needs of a dreaming and learning institution. They need to be able to work with equally competent people in small and large teams with an open mind. Faculty members should have the patience to interact with a diverse range of pupils from different backgrounds, many of whom are primarily from the regional backgrounds.

The prospective candidates should be bright, first class, post-graduates preferably with a degree in education. Teaching experience in a residential school with its associated experience of house parenting, anchoring co-curricular activities of different kinds and with interest in all round development of children is desirable but not essential for candidates who are interested to learn and explore. Couples who could both take up appropriate teaching assignments will be preferred. Faculty members need to stay on campus.

The school is looking for individuals who will be able to contribute to the culture of the school such that both qualitative and quantitative growth can be sustained. To meet the needs from April 2018, as well as to maintain a databank of teachers for any exigent and

future needs, applications for the following openings are invited. The number of tentative vacancies is indicated within the bracket.
