

September 19, 2017

Dear Parents/Guardians,

Greetings!

Sub: Social Science workshop for Classes 6 and 7 from 10.10.2017 to 13.10.2017

We have been reconsidering our approach towards Educational workshops, camps and outdoor trips, so that all the programs and plans made by us in, the form of educational trips help our children in learning and enjoying both in width and in depth.

Keeping in mind the same, we have organized a workshop on social studies and environmental aspects, filled with activities and fun, by Marathi Vigyan Parishad/ Science forum of Nashik. Prof. Gujarathi, Mr. Ajit Takke, Dr. Sangeetha and others will be associated with the program.

The workshop intends to develop an affinity in students, towards history and geography as a subject and create awareness about social and environmental issues. We would like our students to be developing in sensitivity and sensibility towards the larger issues of life and our world. It will also generate amongst the students, a scientific attitude towards learning of social studies.

This workshop is compulsory for all the students, including day boarders. Day boarders, who will not be attending this workshop, will be marked as absent and it will affect their attendance record. No leave applications will be accepted during this period.

The cost of the workshop will be Rs. 1800/- per student, which will be charged/deducted from the imprest amount of the individuals, irrespective of attendance. Kindly ensure there is sufficient credit in imprest account of your ward.

Thanking you
Yours sincerely,

Sundar Kumar Gandikota
Principal
