Notice
National Service Scheme

We are pleased to announce that the NSS unit will be performing a mime act on cyber security at the upcoming cultural festival, Astitva 2024 on 17th Feb. 2024. This performance aims to raise awareness among people and students about various types of cyber fraud that can lead to serious problems.

The mime act will cover multiple themes related to cyber fraud, highlighting the risks and preventive measures. This initiative is designed to educate the community, including parents, students, and the general public, about this crucial issue.

Your participation and support are essential in making this activity a success.

All interested NSS and other student volunteers hereby informed to contact your respective NSS department coordinators for practice session for performing the street play.

PROGRAM REPORT

Title of the Program: *Mime Act on Cyber Security*

Date(s): From 17 /02/2024 to 17/02/2024 **Duration:** 1 Day

Venue: SKH College Campus, Anjaneri.

Details of Participants: 08

Name of the Person with communication details: Prof. K. W. Kale, NSS PO, 9764138323

Introduction

As part of the cultural event Astitva-2024, the NSS unit of KCT's Late G. N. Sapkal College of Engineering presented a mime act focusing on the crucial subject of cyber security. This performance was designed to educate and raise awareness among students and attendees about the importance of cyber security and the various measures one can take to protect against cyber frauds. The act was performed by eight enthusiastic NSS volunteers, who used the art of mime to convey their message effectively and engagingly.

Planning and Preparation

The preparation for the mime act began several weeks before the event. The NSS unit coordinated with the cultural event organizers to secure a time slot and venue for the performance. Volunteers were selected based on their interest and aptitude for mime and acting. Under the guidance of faculty advisors and experienced mentors, the volunteers developed a script that highlighted various aspects of cyber security, including common threats, preventive measures, and the importance of being vigilant online.

Rehearsals were conducted regularly to ensure that the performance was seamless and impactful. Special attention was given to body language, expressions, and choreography to effectively communicate the message without the use of words. Costumes and props were carefully chosen to enhance the visual appeal and clarity of the performance.

Execution

On the day of the event, the mime act was performed in the college grounds as part of the Astitva-2024 cultural festival. The ground was filled with students, faculty members, and parents, all eager to witness the diverse array of performances.

Each scene of the mime act demonstrated the consequences of falling victim to these threats and emphasized the importance of awareness and precaution. The act also included positive scenarios where individuals successfully protected themselves by following best practices like using strong passwords, enabling two-factor authentication, and being cautious about sharing personal information online.

Participation

The mime act featured eight dedicated NSS volunteers, who devoted significant time and effort to perfecting their performance. Their commitment to the cause and their ability to convey complex messages through mime were commendable. The act was supported by faculty advisors, who provided guidance and logistical support throughout the preparation and execution phases.

Impact and Significance

For the participants, the act was an enriching experience that enhanced their understanding of cyber security and improved their skills in communication and performance. The positive feedback from the audience and the organizers further validated the success of the act.

The mime act also reinforced the role of the NSS unit in addressing contemporary issues and contributing to the overall well-being of the community. It demonstrated the power of creative expression in educating and inspiring change among the audience students, their parents, school children were present.

Conclusion

The mime act on cyber security, performed by the NSS unit of KCT's Late G. N. Sapkal College of Engineering during the Astitva-2024 cultural festival, was a resounding success. The performance effectively highlighted the importance of cyber security and educated the audience on how to safeguard against cyber threats. The dedication and talent of the volunteers, combined with the supportive environment of the event, ensured that the message was communicated powerfully and memorably. This activity underscored the significance of innovative approaches to awareness campaigns and the impactful role of the NSS unit in fostering a safer and more informed community.
